King sheets half flannel half cotton. Do they make sheets that are half flannel and half cotton. King size sheets half flannel half cotton.

HALF BED SHEETS | SPLIT THE SHEETS BED TOO HOT, BED TOO COLD, BED JUST RIGHT I have found one of the biggest difficulties sharing a bed with someone is maintaining a comfortable body temperature. My girl likes the bedroom to be a freezer and the sheets to be the coldest cotton known to mankind. She leaves the window open all winter. Me on the other hand, I like my bed to be toasty warm. We do not seem to be able to find a compromise. Then today I had this amazing idea for an invention "Half Bed Sheets". I envisioned crisp and cold on one side of the bed for her and fleece on the other side for me. Unfortunately my dreams of a million dollar must have invention were dashed by an amazon product page for "Split the Sheets". It's important to note that the "Split the sheets" are not for adjustable split beds. SPLIT THE SHEETS | HALF BED SHEETS It never fails - when a couple goes to bed, one person wants to get into a cool bed and one wants to get into a warm bed. I have experienced this same dilemma over the past 30 years of marriage. My lovely wife always wanted fuzzy flannel sheets because she was cold. I always wanted cool cotton sheets because I was hot. Well, I thought I would do something about it! Lying in a puddle of sweat one night, I came up with an idea. What if there was a sheet with a seam down the center attaching cotton together with polar fleece? Yes! I thought. Finally, we could both be comfortable. Thus, Split the Sheets was born! If you are looking for a cooler nights sleep and your partner is always chilly and wanting a fleece sheet to sleep in...you can not always split the bed but you can Split the Sheets. Finally a cool cotton sheet for one half of the bed is combined with the cozy warmth of micro fleece on the other half. The pillowcases are fleece on one side and cool 200 thread-count cotton on the flip side. This finally makes sleeping a breeze. Just flip the pillowcase over to receive the comfort you want at any time. Split the Sheets are designed so that they can be rotated, turned or flip-flopped end-to-end. This way, it doesn't matter which person wants the warm fleece and which one wants the cool cotton, you can both be comfortable. Both the flat and fitted sheets have a seam running down the middle so that one partner can sleep warm and the other cool. In addition, Split the Sheets have deep 18-inch pockets built into the fitted sheets so they will not detach from even thicker sized mattresses or mattresses with extra cushions. Queen flat sheet 90 x 102, fitted 60 x 80 x 18, 2 pillowcases 20 x 32. King flat sheet 108 x 102, King fitted sheet 78 x 80 x 18 deep, 2 King pillowcases measure 20 x 40 each. The King set will also fit California King beds. These sheets are not for adjustable beds. It never fails - when a couple goes to bed, one person wants to get into a cool bed and one wants to get into a warm bed. I have experienced this same dilemma over the past 30 years of marriage. My lovely wife always wanted fuzzy flannel sheets because she was cold. I always wanted cool cotton sheets because I was hot. Well, I thought I would do something about it!
